**ABFC Srl**

Full acceptance of Project technical Specification nr. ZA-E-06999: received

Deviation to technical specification: none

Full acceptance of QUALITY Specification: received

**Execution Method:**

Bidder replies satisfactory the technical requirements of the tender. Acceptance to bid documentation as been clearly stated . Bidder doesn't communicate amends to technical offer Rev. 2 compared to the previous Rev. 1.

The method of statement is sufficient to understand the scope of supply and the bidder shown and declare to be capable to satisfy the complex supply exigence.

All above considered the bidder can be consider technically acceptable.

**BARESI SpA**

Full acceptance of Project technical Specification nr. ZA-E-06999: NO

Deviation to technical specification: YES

Full acceptance of QUALITY Specification: NO

**Execution Method:**

The bidder replies to technical queries and submit complete and satisfactory information and execution method in respect of capability, experience and material management.

Nevertheless bidder do not accept corporate quality documentation and rise several deviations to those and to tender specification.

There are remarkable comments into "table of exception" that may have considerable impact on purchase order price.

All above considered the bidder can be consider technically acceptable, provided that the deviations shall be positively sorted out during the commercial/economical negotiation phase.

**WELDINGPRO Srl**

Full acceptance of Project technical Specification nr. ZA-E-06999: received

Deviation to technical specification: none

Full acceptance of QUALITY Specification: received

**Execution Method:**

Bidder replies satisfactorily the technical requirements of the tender. Acceptance to bid documentation has been clearly stated.

The method of statement is fully aligned to the scope of supply and the bidder shown to be capable to satisfy the complex supply exigence.

All above considered the bidder can be consider technically acceptable.

**RAVA SpA**

Full acceptance of Project technical Specification nr. ZA-E-06999: received

Deviation to technical specification: none

Full acceptance of QUALITY Specification: received

**Execution Method:**

The bidder replies to technical queries and submit complete and satisfactorily information and execution method in respect of capability, experience and material management.

All above considered the bidder can be consider technically acceptable.
